

BRIEF REPORT

on

The facilities provided in terms of Alternate Sources of Energy, Green Campus Initiatives, Water Conservation, Disabled Friendly, Barrier Free Campus etc.

1. Alternative Sources of Energy and Energy Conservation Measures

- a) Lights, fans, computers etc are switched off when not in use. Notices were circulated in this respect.
- b) Traditional electric bulbs have been mostly replaced by energy efficient bulbs and tubes.
- c) Solar lights have been installed to provide an alternate source of energy and reduce energy conservation.

2. Waste Management:

Solid Waste Management:

- a) One vermi-composting unit has been set up for the proper utilization of the bio degradable waste generated from various sources.
- b) The college has an understanding with the local Municipal Body which enables the college to hand over solid waste for proper management and disposal.
- c) The college authority tries to maintain a plastic free campus and whatever plastic is generated are given away to local vendors.

E-Waste Management:

The college has entered an MoU with an organization called Tech Cube which deals with e-waste management. The college regularly disposes its e-waste through this hub.

Rainwater Harvesting Unit:

The college has put in place a rainwater harvesting. The college building has a rainwater harvesting unit. The collected rainwater is diverted to a storage tank of 500 L capacity through the PVC pipelines which is placed above the ground according to water requirements. The harvested rainwater is used for various purposes.

3. Disabled Friendly and Barrier Free Environment

The college provides special facilities to the differently abled students and persons such as wheelchair, walking sticks and ramps. Accessible toilets are available for students with disabilities.
